

OUR BEST BOOTS COMBINED

The Easyboot Glove Back Country takes the best features of the Easyboot Glove and combines them with the Easyboot Trail. The Glove Back Country concept pairs the form-fitting Glove chassis with an easy to secure upper modeled after the Trail.

Lightweight, ergonomic and breathable, this boot has a soft internal upper that protects the soft tissue areas of the hoof and lower leg.

Designed for the discerning trail rider, the Easyboot Glove Back Country is quick and easy to apply without strength or force. The closure system keeps boots secure in the toughest of trail conditions on the most challenging of hoof shapes.

The anatomically designed sole provides maximum flexibility and resists wear. The sole shape is available in 18 regular and wide sizes (see sizing chart), accommodating a broad variety of hoof shapes for definitive comfort and security.

This is a medium to high mileage riding boot (25 – 50 miles per week) and is also ideal to carry as a premium replacement boot for a lost shoe.

The Easyboot Glove Back Country is Enhanced With Features

- » The Comfort Cup Gaiter is incorporated into the rear of the boot for the latest technology in protections and support of the soft tissue areas.
- » The lightweight upper stabilizes the boot on the hoof.
- » Quick and easy to put on and take off, no hand strength or force required.
- » Available in 18 sizes to fit most breeds.
- » Completely convertible: built on the Easyboot Glove chassis, this boot can be converted into an Easyboot Glove or Easyboot Glue-On (note: additional accessories required).
- » Sold in singles.

EASYBOOT GLOVE BACK COUNTRY APPLICATION

Fitting the Easyboot Glove Back Country on your horse

1. Fully open the Cordura® cover ensuring that no Velcro® areas are touching and that the cover is pulled completely forward.
2. Fold the Comfort Cup Gaiter flat with the boot shell.
3. Facing the rear of your horse, pick up the hoof and slip it, toe first, into the boot. Place the sole of the hoof firmly down into the Easyboot Glove Back Country and pull the Comfort Cup Gaiter over the heel bulb. Place the hoof on the ground to a weight-bearing position. Lift an opposite leg to assure the hoof is fully weight bearing.
4. Starting at the front, push both side flaps against the hoof wall in a downward direction. The collar of the boot should be snug around the pastern bone. Secure the cover at the rear by pulling both ends firmly around the heel, overlapping the double Velcro® flaps evenly.
5. The Easyboot Glove Back Country is now securely in place. Confirm that the Back Country patch on the front of the boot is aligned through the center line of the hoof and pastern bone.

EASYBOOT GLOVE BACK COUNTRY SIZING & FITTING TIPS

- » Easyboot Back Country boots fit on both the left and the right hoof: they are not left/right specific.
- » After the cover has been secured, ensure Velcro® flap ends are overlapped in the correct position.
- » Working your horse in incorrectly sized Easyboot Back Country boots can lead to chafing. Correct size selection will ensure maximum performance and hoof boot durability.
- » Give your horse time to adjust to wearing Easyboot Back Country boots. The first time you fit your horse with Easyboot Back Country boots, start by just walking out.
- » Gradually increase the duration and distance of rides wearing Easyboot Back Country boots to ensure your horse becomes accustomed to the new hoofwear. Too much too soon can lead to chafing.

Sizing the Easyboot Glove Back Country For Your Horse

Always take hoof measurements as soon as possible after a fresh trim.

Simply follow the steps on the back of this guide to select the correct size. Please feel free to contact our staff for assistance. Sizing is imperative to a good fit.

Easyboot Glove Back Country hoof boots are available in 18 sizes with each size increasing by 4mm in width and length. Important: Easyboot Glove Back Country boot sizes are not comparable to steel shoes sizes.

Easyboot Glove Back Country sizing allows for natural hoof growth between trimming.

If you intend to use Easyboot Glove Back Country boots over metal shoes*, take your hoof measurements after the horse is freshly shod.

**Using our hoof boots over metal shoes voids the 90-day repair/replacement warranty.*

How to Measure for The Easyboot Glove Back Country

1. After a fresh trim, measure the width of the hoof across the bottom at the widest point.
2. Measure the length of the hoof from the toe to the buttress line of the heel. The buttress line is the farthest weight bearing point of the heel where the hoof wall ends. Do not include the heel bulbs in the measurement.

Measuring for Hoof Width

Measuring for Hoof Length

3. Compare your measurement with the size chart below.
4. Ideally, the length and width measurement will fit into the same size. If the length and width measurements indicate different sizes, select the larger size. If the width and length measurements are different by more than one size, this boot style is not recommended. Be sure to check your measurements against an alternative boot in the EasyCare line—another style may accommodate your horse's hoof shape better.

Normal			Wide		
Size	Width in mm	Length in mm	Size	Width in mm	Length in mm
00	96-99mm	106-109mm	0W	114-117mm	114-117mm
00.5	100-103mm	110-113mm	0.5W	118-121mm	118-121mm
0	104-107mm	114-117mm	1W	122-125mm	122-125mm
0.5	108-111mm	118-121mm	1.5W	126-129mm	126-129mm
1	112-115mm	122-125mm	2W	130-133mm	130-133mm
1.5	116-119mm	126-129mm	2.5W	134-137mm	134-137mm
2	120-123mm	130-133mm	3W	138-141mm	138-141mm

EasyCare Inc. Warranty

EasyCare offers a 90 day repair or replacement warranty for all hoof boots (purchased as new) manufactured under the EasyCare label. Please register your product at http://www.easycareinc.com/warranty_reg.aspx and keep your original dated receipt(s) as proof of purchase during the warranty period.

If a boot fails during warranty, it is generally a minor hardware issue. Please bear in mind that most components of EasyCare hoof boots are either replaceable or repairable. This includes wire laces, cables, buckles, gears, rollers, screws and straps. Most repairs can be easily accomplished with simple household tools. Depending on the circumstances, EasyCare will send you repair parts, or ask that you return the boots to us for evaluation. Videos of many repairs are available on our website at www.easycareinc.com.

While this warranty is very broad in nature, it does not cover wear (including sole breakthrough when worn over horseshoes), misuse, abuse, factory seconds, bargain bin items, or boots purchased as used. Products returned for evaluation must be clean, dry and free of debris, dirt, sand and manure. *Failure to return clean products will result in product being shipped back at sender's expense or a cleaning fee may be assessed.* Damage inflicted by omnivorous horses, rodents or other unusual abuse is not covered.

Returns must be authorized before sending and must be returned with an RMA number. Contact EasyCare directly for all warranty issues at 1-800-447-8836 to receive an RMA number.

Specifically:

1. Returns for credit only (refund of purchase price only): Products must be in new, unused condition, free of dirt and wear marks. It is your responsibility to evaluate the fit of your new product in a manner where you may return it in new condition if you have doubts about the fit. Be certain that you know the return policy of product purchased from dealers other than direct from EasyCare (the manufacturer). EasyCare will not give credit for product purchased elsewhere. Return to point of purchase in that circumstance. Also, all brochures, inserts and/or free gifts must accompany returned items.

2. Exchanges of new product (size or color issue): EasyCare will only exchange NEW items with same product style and model for same product when requested with NEW items only. You may exchange for a different size or color exchange only, no exceptions. If you wish to have a different style of hoof boot, etc., must return new item for refund (original point of purchase) and then purchase new choice.
3. Warranty failure (used product that is within 90 days of purchase): Contact us at 800-447-8836. EasyCare will either provide repair parts directly to you, or repair/replace after our evaluation. Items must be returned to EasyCare at the consumers cost with original receipt. EasyCare will return the items via ground service (UPS or FEDEX) free of charge. Requests for faster shipping service will be at the expense of the consumer.
4. Not under warranty (over 90 days or no proof of purchase): Repair parts may be purchased from your local dealer or EasyCare, or product may be returned for evaluation and possible repair (parts, labor and freight charges will apply).
5. Call for an RMA number (under warranty or not): Returns must be authorized before sending and must be returned with an RMA number clearly written on outside of packaging. Contact us at 800-447-8836 to receive an RMA number. Returns will be refused without an RMA number on outside of package.
6. Freight charges (outside warranty period): Freight charges to and from EasyCare for repairs, exchanges and items outside the warranty period will be the purchaser's responsibility.
7. EasyCare staff is always willing to discuss any specific issues you may have regarding the performance of your EasyCare or Old Mac's products. Please contact us at 800-447-8836 or email to admin@easycareinc.com. Visit our website, easycareinc.com, for tips and product information that will help with the use of any of our product line.
